

VirginN's Ask An Aesthetician Program Provides Beauty & Skincare Expertise

TWIN FALLS, Idaho – April 21, 2015 – VirginN Pure Makeup and Bioactive Skincare launches their “Ask An Aesthetician” program this month where licensed aestheticians answer makeup and skincare questions via video chat and phone.

From selecting the correct color foundation for one’s skin tone to addressing skincare concerns from acne to wrinkles, VirginN certified aestheticians are available to answer questions daily.

“We understand that people may have tons of questions about their skin and the products they use,” says Tonja Lee Valdez, founder of VirginN Pure Mineral Makeup. “We wanted to remove the guesswork and be their go-to source for claiming their beauty and making the best selections for taking care of their skincare needs.”

VirginN Pure Mineral Makeup was developed by practicing aesthetician, Tonja Lee Valdez in 2013. Valdez developed VirginN for her clients who needed a safe and comfortable option for their skin following invasive treatments. VirginN uses only pure ingredients that are free of harmful toxins and contain 18 active amino acids that promote healthy skin. VirginN products avoid the use of: bismuth oxychloride, talc, corn starch, parabens, carmine and kaolin clay.

Interested customers may call the Ask An Aesthetician hotline at: 888-662-8522 or visit: <http://virginmineralmakeup.com/ask-an-aesthetician/> to schedule a video chat. For more information about VirginN or Ask An Aesthetician, visit: virginminermalmakeup.com.
